Subject: Natural Resources Committee request

1-22-07

Montana Senate Natural Resources Committee;

As requested by Senator Kaufmann at the Natural Resources Committee hearing last Friday, I have included a literature review documenting the effects of carbureted two-stroke marine engines. Without duplicating citations, I have broken down scientific literature into two classifications while limiting myself to ten examples from the following two categories; 1) documentation of carbureted two-stroke emissions, and 2) emissions effect to the environment and/or public health.

1) Documentation of carbureted two-stroke emissions.

Bannan, M. 1997. The effects of powerboat emissions on the water quality of Loch Lomond. Post-graduate annual report. Glasgow University and University Field Station, Great Britain.

Boughton, C.J. and M.S. Lico. 1998. Volatile organic compounds in Lake Tahoe, Nevada and California, July-September 1997. U.S. Geological Survey Fact Sheet 055-98.

California Air Resources Board. 1998. Unpublished data. Exhaust emissions from selected marine engines. www.arb.ca.gov. Sacramento, CA.

California Air Resources Board. 2001. Outboard engine and personal watercraft emissions to air and water: A laboratory study. Mobile Source Control Division, El Monte, CA.

Lico, M.S. 2004. Gasoline-related organics in Lake Tahoe before and after prohibition of carbureted two-stroke engines. *Lake and Reservoir Management* 20(2):164-174.

Reuter, J. et al. 1998. Concentrations, sources, and fate of the gasoline oxygenate methyl *tert*-butyl ether (MTBE) in multiple-use lake. *Environ. Sci. Technol.* 32:3666-3672.

San Diego County Grand Jury. 2003. Polluting Just for the Fun of It: Two-stroke engines on Mission Bay. San Diego County Grand Jury, San Diego, California.

Tahoe Regional Planning Agency. 1999. Environmental Assessment for the prohibition of certain two-stroke powered watercraft. Tahoe Regional Planning Agency, Lake Tahoe, California.

U.S. Environmental Protection Agency. 1996. Regulatory impact analysis. Control of air pollution emission standards for new nonroad spark-ignition marine engines: Office of Air and Radiation Publication ANR-443.

Whitefish Lake Institute. 2006. Unpublished. Gasoline constituent loading and motorized watercraft levels, Whitefish Lake, 2005-2006. Whitefish Lake Institute, Whitefish, Montana.

1/22/2007

Pres Fred Hodgeboom
VP Gary Hall

Sec Carl Anderson
Treas Roleen Anderson

January 22, 2007

Fax: 406-444-4825

TO House Natural Resources and Energy Committee Chairman: Greg Lind

CC Members: Dan Harrington, Christine Daufmann, Mitch Tropila, David Wanzenried, Aubyn Curtiss, Kelly Gebhardt, Gary Perry, Bill Tash

Re: SB 221, Revise Laws Relating to Board of Environmental Review

Chairman Lind and members of the Senate Natural Resources and Energy Committee:

Please support SB 221. Montanans For Multiple Use strongly believes that the important work of the Board of Environmental Review should be a multi-disciplinary team composed of credentialed professionals representing the broad range of disciplines proposed in SB 221.

Respectfully,

Fred D. Hodgeboom, President
Montanans For Multiple Use
